

Individual and Group Advancement
Programs for Participants

SAMS TOOLBOX

Tools for Self-Awareness & Motivation

Creating New Pathways offers a unique program called SAMS Toolbox, which is designed to provide participants with a personalized approach to developing self-awareness, motivation, and a pathway to advancement.

The SAMS Toolbox program focuses on addressing all areas of participants' personal development, including mental and physical health, connections, and finances, empowering them to manage their own pathway to employment. With qualified and registered allied health practitioners, the program is tailored to meet the unique needs of each participant, regardless of their cohort such as Mental Health, Addictions, LGBTQI+, Ex Offender, Young People, Disability, or Men/Women Groups.

The SAMS Tool Box program is available both in individual sessions and as a group program, providing participants with the support and guidance they need to succeed. By identifying their individual needs and building awareness, participants are empowered to take control of their lives and unleash their full potential.

If your participants are ready to take the first step towards personal growth and development, reach out to Creating New Pathways today to learn more about SAMS Toolbox and discover how it can help them achieve their goals.
